WHY "ESPAÑIÑO" PROGRAM?

The "Españiño" Summer Program has been created with the idea of providing a fun and educational linguistic summer experience for children who are 4 to 10 years old. Since it has been repeatedly proven by second language acquisition researchers that younger children are more able to naturally acquire accent-free, native-like proficiency in a second language, we decided to make the most out of this advantage.

This full immersion program follows a fun and effective methodology, which is put into practice by professionally, trained language instructors and counselors. Each and every one of our camp days are experiences in themselves, since the "Españiños" are exposed to the practice of not only all the language skills, but also to the learning of the characteristics of the Hispanic cultures through the activities offered in the program.

WHAT OUR SUMMER PROGRAM IS ALL ABOUT?

CHARACTERISTICS OF THE PROGRAM:

There are three sessions of 4 weeks each.

- ✚ Each of the twelve weeks in the summer program covers specific content units that deal with topics related to the age of the "Españiños".
- ✚ All the activities, crafts, stories, songs, meals, games and language modules are conducted entirely in Spanish, and the campers are encouraged to use the language at all times.
- ✚ Every week the "Españiños" learn about the culture of a Spanish-speaking country through all the activities.
- ✚ Every week, the "Españiño" parents receive a Take-Home sheet, which is a brochure that contains information on the material and vocabulary covered, and also pictures and comments of the different activities during the week. This is intended to provide another source of practice for the "Españiños", and an opportunity for the parents to track all their children's achievements, while they are learning with them.
- ✚ At the end of each session the "Españiños" receive a **Certificate of Completion**.

SNACKS: LA MERIENDA LATINA

The school provides this snack and it consists of a cup of juice and crackers, cookies or some typical Hispanic pastry. This is a moment in which the "Españiños" learn vocabulary related to food and share with their friends.

GENERAL DESCRIPTION

THE LANGUAGE MODULE: LA TERTULIA HISPANA

This module has the objective of presenting the Spanish language in a formal instruction environment. The classes are always fun and memorable. The "Españoles" learn content and vocabulary, which are then related to the rest of the day's activities.

THE CULTURAL ACTIVITIES MODULE

This module consists of daily activities, which are done by the campers on a rotation basis. These activities are intended to reinforce the language content learned in the language module at the same time they teach new vocabulary and characteristics of Hispanic countries and culture.

STORY TELLING AND CRAFTS IN SPANISH

These activities present the literature of Spanish speaking countries in the form of books, videos or slides. The "Españoles" dramatize the stories; learn where they come from and the reasons why they exist. Also, they work on craft projects from the Hispanic world and learn about the art in those countries through the stories read in this activity.

TIPICAL FOOD

This activity introduces children to different foods that are typical in Hispanic-speaking countries. They learn about the ingredients, the recipe and how to prepare the special dishes. They also participate in cooking and tasting dishes, which add a special touch to their days at the camp!

*****TalkKids*****

We know that your child's summer experience with the new language will be an enjoyable and memorable one. As usual, we have certainly planned the "Españole Summer Program" with great care and assure you that you will see a smiling face at the beginning, throughout, and at the end of each day your son or daughter spends at "camp".

Thank you so much for choosing TalkKids and the "Españole Summer Program" for your child! His/her world will never be the same after the experience. You, together with us, will have opened an incredible door for him/her: the door of communication.
